Establish new relationships and learn more in 48 hours than you ever thought was possible! The Lab Directors Summit is two days of uniquely structured small group presentations, interactive roundtable sessions and social functions, unlike anything you've ever experienced. Get introduced to dozens of others responsible for their operations and senior representatives from the vendor community who will share their case studies on how they're approaching lab issues in the US, Canada and around the world. "It was so refreshing to get to discuss the real issues in Laboratory today and hear how others are handling situations similar to what we are experiencing. The extremely interactive environment allowed organic discussion of so many important issues."
